* TRADEMARK REG. U. S. PAT. OFF.

STERILAMP WARRANTY

The Manufacturer agrees to furnish free "renewal" parts for any parts of STERILAMP equipment (except STERILAMPS) which prove defective in material or workmanship under normal and proper use within the period of one year from the date of installation, provided that the Purchaser gives the Manufacturer immediate written notice of such defects and that inspection by the Manufacturer establishes the claim and correctness of such defects. The Manufacturer's STERILAMPS are warranted to give an effective life of six months service under normal and proper operating conditions and any lamps failing to do so will be replaced, provided a notice of installation has been mailed to the Manufacturer within five days after the lamp was installed. The foregoing warranties will not apply to any STERILAMP products, including STERILAMPS, which have been subject to accident, misuse or unauthorized alterations. The manufacturer in no event shall be liable for consequential damages. The foregoing warranties are in lieu of all other warranties expressed or implied.

STERILAMPS will not normally burn out or fail to light but gradually lose their bactericidal efficiency through discoloration of the glass which absorbs the ultra-violet radiations. This occurs gradually at room temperature (70°F) but more rapidly at lower temperatures. If not operated at temperatures below 40°F, an effective life of six months can be expected. In order to be assured of continued bactericidal protection, STERILAMPS should be replaced after six months of service.

TRANSPORTATION CHARGES AND CLAIMS

All STERILAMP products listed in the price schedules will be sold and billed to Purchasers, f.o.b. point of shipment.

Claims for loss or damage in transportation must be filed with carriers within nine months after date of delivery or in case of non-delivery within nine months after a reasonable time for delivery has elapsed. Claims for concealed damage will be accepted by carriers only when such damage has been reported to them within fifteen days after delivery. Purchasers desiring the assistance of the Manufacturer in filing such claims must report them to the Manufacturer within a reasonable time so as to enable the Manufacturer to comply with the common carrier's requirements.

LICENSE NOTICE

"The sale of this device does not imply a license under any patents owned or controlled or under which a license is owned by Westinghouse Electric & Manufacturing Company, its controlled or subsidiary companies, except patents covering the device itself."
